Click Options

Another new page will open, scroll down until you see this

Type -
.dvrlists.com/
here including the
*

Viewing Your Cameras From Your Computer (Using Google Chrome)

Click "Add"

What you just typed
will appear here

Note If your computer is connected to the same internet as your DVR, you will also need to add the DVR's IP Address beginning and ending with *

You can now either close this tab or just type in the address to your dvr in the url bar
